

Professional Development for Effective Leadership 2018-2019

Our effective leadership courses offer high quality professional development for teachers and leaders. Four and six day courses ensure that practitioners can embed learning in the classroom between sessions, share experiences with colleagues from other schools and develop practices long term and across the school.

Power of Reading

In its 14th year, this training project uses high quality children's literature and proven practical teaching approaches to engage teachers and children in the literacy curriculum and develop a love of reading and writing across the school.

Power of Reading projects will be taking place nationally in 2018-19.
